# **Your Travel Document Checklist**

Pasaport Kontrol  
Passport Control

## PASSPORT & VISA

**Passport** - When travelling overseas it is your responsibility to ensure that you have:

- A passport with 6 months validity and sufficient blank pages for immigration stamps.
- EU citizens do not require a passport. Your identity card in Latin characters is sufficient to enter Greece. However, if you have a valid passport, it is recommended to bring it along.
- Check that the name on all bookings match the name in your passport.

**Visa** - All foreign citizens EXCEPT from the European Union, the USA, Canada, Australia and New Zealand, require a visa to enter Greece. For more information, contact the Greek embassy in your country.

Note: Granting entry into a country is at the discretion of Immigration Officials.

# TRAVEL INSURANCE

**Travel Insurance** - Comprehensive travel insurance is mandatory for the duration of your travels.

What you will need:

- Travel insurance to cover you from the date you depart your country of residency, until the time you return home.
- Check coverage and how payments are made
- Provide a copy of your Travel Insurance at least one week prior to your departure date, to Magical Sunset.
- Keep handy your local doctor's phone number in case of an emergency.

**Details to be sent to Magical Sunset:**

1. Policy number
2. Insurance company name
3. The insurance company 24hr international emergency assistance contact number

# DRIVER'S LICENCE

## International Driver's Licence -

- If you are planning on hiring a vehicle during your travels, an international driver's licence is required.
- Applications for an international driver's licence can be made before you leave. Alternatively, you can apply for it online while in Greece. A copy of your current licence is needed and it takes approximately 2 days to receive.
- Most international car rental companies are represented in Greece, so your vehicle rental choices are plentiful. Vehicle choices range from low budget to luxury top end, depending on your needs and preferences.

**Document Holder** - Keep a copy of all documents in a dry plastic sleeve for your reference or scan and save on a cloud-based account.

# CURRENCY

- **Credit cards** - Credit cards are a secure method of currency exchange and are accepted in many restaurants and fashion shops. Look for credit cards with zero international transaction or currency conversion fees.
- **Cash** - In some small coastal fishing towns, cash is the only form of currency. Ensure you have adequate Euros for your needs.
- **ATM** - If you have a debit account, you can access Euros, from any ATM facility. Most towns have at least one ATM, however in some smaller towns, an ATM might not be available.
- **Traveler's Checks** - Perhaps a thing of the past and the long lines in the bank (if a bank is available) make them an inconvenience.
- **Emergency Cash** - If you have run out of Euros and don't have any of your own currency to exchange, consider a credit card to withdraw cash from an ATM. The fees will be high.
